Subject: Request for Resolution of Bus Driver Strike Impacting Transit Service

Dear Executive Committee Members,

I am writing to you on behalf of RideSD, a transit advocacy group dedicated to improving public transportation services in our community. We are deeply concerned about the ongoing strike by bus drivers employed by Transdev. This strike has had a significant impact on transit service and is adversely affecting transit riders who rely on your services for their daily transportation needs.

While we understand that the bus drivers are not directly employed by MTS, we strongly urge you to take all necessary actions within your authority to help resolve the strike in a reasonable and timely manner. The disruption caused by the strike is resulting in reduced service frequency, increased wait times, and significant inconvenience for transit riders throughout the community.

As a public transit agency responsible for ensuring reliable and accessible transportation options, it is crucial that you address this issue promptly. We believe that it is in the best interest of both MTS and transit riders to work towards a fair resolution that meets the needs of the bus drivers while also minimizing the impact on transit riders.

We appreciate your attention to this matter and your commitment to providing reliable and efficient transit services. Thank you for your time and consideration.

Sincerely,

Zack Defazio Farrell
Co-Founder
RideSD
